

ICT Enabled Language Lab

The institution has effectively transformed its traditional Language Lab into an ICT-enabled Digital Language Lab to improve the Caliber of language instruction and foster the growth of effective communication abilities. The newest technology is incorporated into this upgrade to give students an engaging and dynamic learning environment.

High-performance computers, multimedia equipment, and interactive language learning software are all included in the refurbished lab, which supports all concepts of language learning, including speaking, listening, reading, and writing. With the use of speech recognition software, pronunciation manuals, and audio-visual materials, students can now practice their language abilities while ensuring fluency and correct language use. The lab's internet connectivity allows access to a wide range of online learning materials, global language resources, and interactive exercises.

This upgradation ensures that students gain effective communication skills in English, promoting academic success and preparing them for possibilities around the world. This ICT-enabled Digital Language Lab has played a vital role in supporting the college's mission of fostering holistic student development.
