Career Guidance Cell Report 2023-2024

The Career Guidance Cell (CGC) of S.D. College, Barnala aims to provide students with the necessary resources, information, and guidance to make informed career choices. The cell operates throughout the year by organising different programmes, career counselling sessions, Mock Tests, Aptitude Tests, Lectures and Events. It offers career guidance and counselling to students on all aspects of career planning and higher studies. During admission days, the Career Guidance Cell team remained active to help the needy students in the selection of their courses. In order to decide which stream and course to decide after their board classes, Career Guidance Cell of S.D. College, Barnala conducted a career counselling programme from 10 July 2023 to 12 July 2023. The main purpose of the programme was to create awareness among the students about various courses and career opportunities after 10+2, Graduation and Post-Graduation levels. In fact, it was a student-centered support service programme to help them resolve their queries related to career options. These sessions aimed at making the students aware of the multiple

career options available. The sessions were informative and enriching for students as well as parents. Total 60 students participated in these sessions. Some of the parents of the wards approached their counsellors for exchange of views and advice. Tele-counselling or e-counselling was also provided.

APTITUDE TEST REPORT

Over the years, Guidance as a programme in the college had always been carried out by way of guiding, mentoring and exploring hidden talents of students. Guidance cell is empowering students to discover, develop and apply their unique talents to achieve their greatest career potential and also putting efforts to impart students the knowledge of self, career options and resources. During the academic session, it provides students with material as mock tests, guidance for books and magazines. The students after graduation seek admissions to other universities and courses based on entrance examinations. In order to decide which stream and course to decide after their board classes, Career Guidance Cell of S.D. College, Bamala conducted an Aptitude Test on Tuesday, March 26, 2024 to identify their talents and choose career lines accordingly. Total 35 students participated in the mock Test. The aptitude test conducted by the Career Guidance Cell was a valuable exercise for pass-out students, providing insights into their

abilities and helping them navigate their career choices. The feedback received highlights the importance of such initiatives in supporting students transition from academic to the professional world.
